Cross Borneo Facts

Cross Borneo is a moderate challenging trip, which not only need a good health in body to stand the rough terrain but the more over a psychotic health to stand the limits, and un-expectations it all will cause. You will trek for 6 to 7 days through unhabituated primary cloud rain forests in the Muller mountains. Hunt, and fish for extra protein. The river ride to reach the most remote part of this island will lead you through heavy fast stream rapids, while the long boat with speed engines lead you through the Rocks and amazing Limestone walls standing 40-70 meters strait in the sky. The art full Dayak Culture and Longhouses, the area is covered by mangrove, swamp, and lowland rain forest. The Tourism spots are the Villages and river life. The further you get upstream the more adventures it will be, till you reach the dense jungle after the rapids. Wildlife is mostly seen while never can be a guaranty. This trip suit for those with patient and adventure spirit, ready to expect the unexpected

Cross Borneo Weather

Day Temperatures 25 °– 32°C

Night Temperatures 16 °– 22°C

Humidity 80%-90%

Rainfall 4,000mm per year

Wet Months October & June

Dry Months February & August (but expect daily rain)

Cross Borneo Accommodation

Mahakam River has poor accommodation facilities at the villages, mostly with thin mattresses and cold water facilities only, the Jungle camp is a prepared camp with roof only to stand the rain
